

The Board of Directors received a request to re-publish the names of the members of the Additional Peerage Exploratory Committee (APEC), this time including their awards/ranks and their home Kingdoms. Below you will find the list of the members, the awards most relevant to their work on the committee and their home kingdoms. The members of the committee were chosen to represent various interest groups, skill sets needed for the work, and geographical diversity to the extent possible from the pool of applicants. While we could not choose representatives from every Kingdom (we had few or no applicants from some Kingdoms), a number of the committee members have lived in multiple Kingdoms and are familiar with different Kingdom cultures.
